We recommend ZOOM - it is easy to set up, and you can have as many people join as you like!

Set up a fundraising page

This is how you can get people to donate. Set a recommended entry price (£5-£10 per person is a good starting point) This money is going towards helping South London Cares to keep older neighbours connected from afar, including our new **Virtual Social Clubs**. These include quizzes, chair yoga and desert island discs!

Find your contestants

Put a call out to all your friends telling them about the night, and inviting them to become contestants. They will need to send you their star's identity and a song choice

Get starry eyed!

The night runs just like our favourite TV programme from the past. Acting as the host, you introduce each contestant by asking them a bit about themselves, all leading to the important part, when they say **"Tonight Matthew, I'm going to be..."** They then have 30 seconds to transform themselves into the star (smoke machine optional) before performing a killer rendition of their chosen track.

After all performers have had the chance to wow their virtual audience, **the crowd can vote** (using a poll or the chat box). The winner is then revealed, and can relive their unforgettable performance for their adoring crowd.

Make sure this is a night people remember. Think about ways to keep the audience lively and engaged throughout, we even have a mini quiz you can use!

Get creative

This is not just any virtual event - this is an extravaganza, and all contestants should be encouraged to be as creative as possible. We're talking outfits, wigs, backdrops.

As the host, you should also get creative - maybe even dress up as Matthew himself!

Load up your soundtrack

Encourage participants to message you their song choices, and load them up on Spotify or youtube. Having a theme like 'holidays' or 'childhood' is a great prompt.

Get your Kirsty Young on!

Start by welcoming your participants to today's episode of desert island discs, and letting everyone know how much has been raised so far! You could even set a target to try and reach before the end of the episode.

Now the fun begins - as the host, you will be selecting songs at random, and asking people to share a story about why they chose that particular song.

Now you can play their track and everyone gets a chance to dance!

You could even go one step further and ask everyone to bring a book and a luxury item with them to share with the audience.

Get creative

This is not just any desert island discs - this is a virtual fundraiser! You, as the host, and all contestants should be encouraged to be as creative as possible.

How can you turn your living room into a desert island?

Who has the best virtual background?

How sunburnt would you be?
